#### You Must Have Plenty of Iron in Your Blood to Be Strong, Says Doctor

Nuxated Iron Will Increase Strength of Delicate, Nervous, Itun-down Feople 200 Per Ceat in Ten Dars in Many Instances.

NEW YORK, N. Y.—Most people foolishly seem to think they are going to got renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. Sauer, a specialist of this city, when, as a matter of fact, real and true strength can only come from the food you est. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what, so they generally commence doctoring for stomach, liver, or kidney trouble or symptoms of some other aliment caused by the lack of iron in the blood. This thing may go on for years, while the patient suffers untold agony. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming ited. Next take two five-grain tablets of ordinary, nuxated fron three times per day after meals for two weeks. Then the strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days'.
